SUMMARY

Software engineering student at Epitech with hands-on experience in DevOps automation, game engine architecture, and full-stack development. Adept at building scalable systems and solving complex problems in collaborative environments.

SKILLS

Languages & Frameworks: C++, C, Haskell, Python, JavaScript, Django, Next.js, REST APIs, HTML, CSS

DevOps, Tools & DB: Docker, Kubernetes, Jenkins, Ansible, GitHub Actions, Git, WordPress, Godot, SQLite, PostgreSQL

Soft Skills: Teamwork, Problem-solving, Quick Learning, Resilience, Flexibility

EXPERIENCE

Web & Game Developer Intern

Africereal

Cotonou, Benin

Nov 2024 – Jan 2025

- Contributed to e-learning platform development projects using WordPress.
- Contributed to learning game development projects using Godot.

Participant, DISCOVERY 2025 Innovation Event

Future Studio

Cotonou, Benin

Feb 2025

- Collaborated in a tech challenge to design innovative digital solutions.
- Collaborated in a team focused on creativity and practical implementation (1st place winner).

PROJECTS

Lead Backend & Architect

AREA (IFTTT/Zapier Clone)

- Designed a Django/DRF microservices architecture; built an async automation engine with multithreaded workers for API integrations (Google, Discord, GitHub).
- Architected a cross-platform OAuth2 “Central Hub” backend unifying Web/Mobile auth flows.
- Orchestrated DevOps: Docker containerization, SQLite to PostgreSQL migration, and Railway deployment.
- Supervised end-to-end development, ensuring alignment between Backend logic and Frontend requirements.

Whanos – End-to-End DevOps Automation Platform

- Engineered a Jenkins CI/CD platform to detect repo technology, build Docker images, and auto-deploy.
- Developed robust Docker images for 5 languages, ensuring consistent builds and optimized execution.

R-Type Game Engine (C++)

- Developed a high-performance 2D game engine from scratch using C++17 ECS architecture.
- Built a low-latency UDP multiplayer networking engine with custom packet encryption for security.

Full-Stack Developer – Web Applications Portfolio

- Developed a portfolio utilizing modern stacks like Django, Next.js, and Tailwind CSS.

EDUCATION

High School Diploma (BAC D)

Cardinal Bernandin Gantin (CBG)

Calavi, Benin

2023

Bachelor in Computer Science

EPITECH Benin

Cotonou

2023 – 2026

LANGUAGES

French: Fluent (Native)

English: Professional Working Proficiency
